

Dear parents, teachers, and employees:

In 1988, Congress passed the Asbestos Hazard Emergency Response Act (AHERA). AHERA is a provision of the Toxic Substances Control Act. It requires that local education agencies (LEA) such as Career Path High inspect for asbestos-containing building materials, prepare and maintain up-to-date AHERA Management Plans, and notify occupants of the plan on a yearly basis. All of this in an effort to prevent the exposure of asbestos to the occupants of our school buildings

Sampling tests were performed and have determined that no asbestos containing materials were found. We continue to be alert to ensure that suspected asbestos- containing materials do not pose a hazard to our students and staff.

Career Path High's AHERA Management plan is available for review in the main office and has been submitted to the Utah Department of Environmental Quality/Division of Air Quality.
